

GSRJ Visitor Parking

As the garage at 100 Congress does not allow visitor parking, GSRJ has arranged for visitor parking in our adjoining building, the 101 Colorado Garage, located in the basement of the Ashton Apartments. A map to the garage is provided below.

The public entrance and exit of the garage is on Cesar Chavez Street. If you are visiting before 6 PM, take a ticket from the machine. We will provide you with a validation ticket before you leave our office. Please note that you will need to validate your original ticket at the payment machine (marked by \$ on the image below) on the Ground Level.

After parking, take the elevator up to the ground level, exit the building, and walk east across the alleyway to 100 Congress. The bank of elevators that service the 14th Floor is on your left as you enter the lobby.

Be sure to have your ticket validated by our receptionist before leaving GSRJ.
